- 3) The minutes of the 1st general meeting held in Stavanger were approved. Proposed by Australia and seconded by Greece.
- 4) Matters arising none.
- 5) Presidents report. Professor Bath opened his report with a plea for a membership drive to move up from our present 18 countries towards the World Veterinary association of 85, [particularly to include more South American countries as well as Asia]. He applauded the regular contact between New Zealand and the committee fine tuning the conference. He congratulated the organising committee in effect organizing two conferences with the cancellation of the proposed venue in Christchurch due to the earthquake.
He announced that awards for contributors would be made as well as life time awards for service to the ISVA; these will stretch back over the 28 years. No current officer would be eligible for such an award. He envisaged other committees to emerge over time such as history, development and awards committees. He was keen to see the website regularly updated and a data base of active countries.
Finally he proposed that a levy of \$10USA would be imposed per delegate attending this and subsequent conferences. This required a change to the

constitution. The change was proposed by Greece and seconded by Norway and carried unanimously
